THE DAILY NEWS

AP LARGEST CIRCULATION .- THE DAILY NEWS BEING THE NEWSPAPER OFFICIALLY RECOGNIZED AS HAVING THE LARGEST CIR-CULATION IN THE CITY OF CHARLESTON, PUBLISHES THE LIST OF LETTERS REMAIN-ING IN THE POSTOFFICE AT THE END OF EACH WEEK, ACCORDING TO THE PROVIS-IONS OF THE NEW POSTOFFICE LAW.

LOCAL MATTERS.

AUCTION SALES THIS DAY.

WARD No. 1 .- You have but to-day. Register at once. This is your last chance.

CATHEDRAL DISCOURSES .- The Rt. Rev. Dr. Persico will preach at the Cathedral Chapel to-morrow evening at 7 o'clock. Subject-

THE MILLS HOUSE .- By an advertisement in another column it will be seen that the Mills House will be closed on Tuesday next until

WARD No. 2 .- Make your employees register to-day. At 4 o'clock the Registration Board will close its session.

BISHOP WIGHTMAN is expected to preach tomorrow morning in Trinity Church. This will be the last opportunity his friends in Charleston will have of hearing him for six months perhaps, as he will leave in a few days on his Episcopal tour.

St. Stephen's Berkeley, the registration was as | behind the hearse. Next to the firemen came follows: April 1, colored 10 and whites 1; April | a large number of citizens, and then the hearse 2. colored 11 and whites 1.

the registration was: colored 18 and whites 2. | as follows : R. M. Alexander, E. F. Sweegan,

Wand No. 3 .- To-day and Monday are still before you. Register every man. Do not let one qualified man fail to do his duty.

BUSINESS TICKETS .- The South Carolina Railroad has now for sale "Business Tickets," entitling the holders to travel one thousand miles for \$25. The manner in which they are to be used, and the restrictions under which they are issued, have already been explained in the

Quier.-Last night was particularly quiet, and though the different hotels showed good lists of arrivals, the popular establishment in Broad-street, kept by Mayor Cogswell, was slimly attended. The police pickets reported nothing unusual, and from the Ashley to the Cooper the city was in a state of moral quies-

MAYOR'S COURT.-This tribunal was closed yesterday in consequence of the death of Al- testified the community's sense of the loss it derman Courtenay, and no business was transacted in any of the public offices until after 12 M. A number of prisoners who had been arrested for sundry misdemeanors were consequently compelled to remain in "durance vile" until this morning, when they will have a hearing before his Honor the Mayor and recaive the reward for their misdeeds.

WARD No. 4.-From 9 A. M. to 3 P. M .- six hours-is all the time you have. Do not be afraid of waiting in the crowd. It is better to wait for registration than to wait forever to

forgotten that to-night is positively the last of Sargent's stay. Those who have neglected to pay him a visit should avail themselves of this opportunity. Professor Sargent will give a will give a present to every child in the house. When it is considered that the tickets have been placed at the low price of thirty-five cents, this generosity appears wonderful. At | flattened at the sides, extending behind to carry night the entertainment will commence at 8 out the fullness of the robe, which is entirely and a small fortune can be obtained perchance by securing a tickets.

WARD No. 5 .- Can you not do more? Is not there one more man you can register? This is your last opportunity.

REGISTRATION .- Notwithstanding the gloomy weather there was a good attendance at the ifferent precincts yesterday, and the number registered was larger than on any of the preceding days. In the United States Court the rights of citizenship were conferred on thir. teen white men, who will doubtless improve the golden hours and register themselves as voters to-day.

The following is the result at the different precincts vesterday:

Whites. Colored. First precinct-Wards 1 and 2....19 Second precinct—Ward 3......
Third precinct—Ward 4..... Fourth precinct-Ward : 5, 6, 7 & 8.69 White majority......123

WARD No. 6 .- Register to-day, or register

never. Fail not. A DULL DAY .- Yesterday was decidedly the dullest of the season, dark, rainy, and disagreeable. April was for the nonce transformed from a gay and blooming maiden to a weeping Naiad, her proverbial showers predominating decidedly over her smiles. The dust was most effectually laid, and the new asphaltum pavements on Meeting-street received a thorough washing. As the public offices were closed during the morning hours but little business was transacted in Broadstreet. Along the wharves some activity was displayed, as, notwithstanding the depressing influences of the weather, cotton was reported still on the rise, and the faces of the lucky speculators were in striking contrast to the general gloom. In other portions of the city the rain and the muddy streets were the only topics of conversation. The boot-blacks, however, were in their glory, and reaped a rich harvest of nickle from their numerous cus-

WARD No. 7 .- March to the polls this morning. Do your best. Show what your Ward poor orphans of Confederate soldiers who are New Hampshire. can accomplish for our dear old city.

THE FIRST SHIPMENT OF SOUTH CAROLINA PHOSPHATE.—The valuable beds of phosphate on the Ashley River, near this city, will soon enter into the trade of the country, and promises to be the basis of a business which will be large and valuable. The parties interested have been for some time making arrangements, and have been constructing wharves and digging and collecting the valuable deposit. There are at present considerable amounts ready for shipment, and two schooners, the Anna Burton and T. G. Smith, left this city yesterday in tow of the steamer Pilot Boy, Captain Thomas Payne acting as pilot on the occasion, and were taken safely to one of the wharves on the western banks of the stream, about fifteen miles from town, where they will both be speedily freighted for Philadel-

The channel of the river is sufficiently deep for all purposes, and vessels of a suitable size will find no difficulty in being towed directly to

On Holy Thursday the institution of cashier of the Farmers' and Exchange Bank. | the Lord's Supper is commemorated, and in His high integrity and strict fidelity in every position that he was called upon to fill, won him many and firm friends. Mr. Strobel had reached middle life, being about fifty years of age.

OBSEQUIES OF ALDERMAN S. G. COURTENAY. The various societies of which Mr. Courtenav was a member, met at his late residence yesterday morning to join the funeral cortege. The sad procession left the house a few minutes before 10 o'clock, and proceeded through Broad, Meeting and Wentworth streets, to assistants of the fire department, followed by the different companies according to the date of their organization, with the exception of REVISORY REGISTRATION.—At the precinct of the Æina, whose members walked immediately attended by the pall bearers, eight in number, At Bishopville, for three days ending April 1, who were chosen from the different societies E. Willis, John F. O'Neill, M. P. O'Connor, E. W. Marshall, E. McConkey, and A. T. Smythe. After the hearse came a long line of carriages with the family of the deceased, the Mayor and Aldermen and citizens. On arriving at the church, seats were assigned the family and the Mayor and Aldermen in front of the pulpit, the pall-bearers being near the body, while the firemen and the members of the different societies filed to the right and left of the aisles. The funeral services were read by the Rev. C P. Gadsden, the Rev. C. C. Pinckney, the rector of the church, being absent at the consecration of Bishop Beckwith, of Georgia. The church was crowded with the sorrowing friends of the deceased. At the conclusion of the services, in which the choir participated, the body was borne back to the hearse and taken to the family burying ground at Magnolia for interment. The day was rainy and disagreeable but the very large attendance at the funeral had sustained.

APRIL FASHIONS. -The new and monstrone panier hoops have made their appearance in New York. The Commercial says: "Walking dresses are worn just escaping the ground at the hem, with either one skirt trimmed by wide bias bands of like fabric, in a different shade of the dress color, representing a tunic open in front, or more fashionably, with an upper skirt variously festooned about the body The odious panier fashion of old court styles of the last century has been revived, which causes the dress to puff out on the hips in uncouth drapery, with as much grace as belongs SARGENT, THE ILLUSIONIST .- It must not be to a washerwoman's tucked-up petticoat. To give this inelegant effect, a circular arrangement, full of whalebones, is worn round the waist, and the upper skirt is looped to the belt behind or on the hips. The only thing that matinee this afternoon at 3 P. M., at which he can be alleged in favor of this ungainly device, is that by contrast with its puffed drapery the waist appears small. To suit the cut of the dress-skirt, hoops are worn of a shape slightly P. M. Reserved seats fifty cents. Prizes will in the back. A hoop, two and and a quarter means gives no larger appearance to the dress than a round hoop, a half yard smaller, the width being thrown in the train, where it is needed. Waists a revers are the general style, and the polonais is often made thus, and sleeveless over a dress of pale striped silk. A loose coat sleeve is the only one seen in fashionable dresses."

> SCHOOL EXAMINATION .- The examination of the school of Mrs. Dr. Pinckney, in Aiken's Row, which has been progressing for several days past, closed vesterday with the examination of the senior class. Their proficiency in the various branches of their academic course was amply exemplified by a long, thorough and exhaustive examination. In geology particularly they did exceeding well.

Professor Francis S. Holmes, of the Charleston College, who is the best authority we have on such subjects in Charleston, was present, and listened with attention and evident pleasure to the two hours' review of the text book on geology, through which Mrs. Pinckney carried her scholars with a show of justifiable pride in the knowledge waich they displayed, and he declared himself astonished at the result of the examination, which, he said, would have done credit to a graduating class at college.

The exercise in geology was but an example of the manner in which the whole examination was conducted, proving clearly that the object aimed at and obtained by Mrs. Pinckney and her able assistants, was thoroughness rather than show. The senior class was the last of seven large classes that were examined, and, when we reflect upon the amount of work performed by the principal of the school in this ardnous conclusion of a laborious session, we cannot but consider that she deserves at least as much praise as the young ladies who show

ed themselves so worthy of her efforts. The teachers of the school are: Principal Mrs. Dr. Pinckney. Assistants, Rev. C. P. Gadsden, Belles Lettres; Professor Dubos, French; Miss Tucker and Miss Pinckney, English branches.

"WHOSO' GIVETH TO THE POOR LENDETH TO theatre has been set apart as a benefit to some now cared for by the Directors of the Widows' and Orphans' Home. The ladies in charge of county, Fla.; J. E. HOLY WEEK AND ITS OBSERVANCE .- To-mormunity yesterday suffered the loss of two of its | row will be Palm Sunday, a day of unusual inold residents, who, without having been promi- terest among the members of the Catholic nent as public men, have passed through life | Church. It is so called from the blessing and distribution of palms, which takes place on that day in every Catholic Church throughout the The late James H. Ladson had reached the world. The ceremony precedes the High Mass, full period allotted to man, having passed three and during the reading of the Gospel relating strewed the road whercon he walked with their garments, olive branches, &c.

Palm Sunday is the beginning of Holy Week, and the services of the Catholic Church will be as usual on Wednesday, Thursday, Friday and Saturday evenings, when the office of the Tenesome places the priests wash the feet of twelve poor persons, in imitation of the act performed by Jesus in washing the feet of the Apostles. It is done by the Pope to thirteen priests. A consecrated host is carried by a procession to some temporary altar prepared for it, and kept there until the next day, when the priests carry it back to the main altar and consume it. There is no mass on Good Friday, and the altar is stripped of all its ornaments. The ceremony of kissing the cross is perforr ed on this day by all the faithful. Grace Church. It was headed by the chief and On Saturday the services begin by the blessing of fire and water, and of the paschal candle, an emblem of Jesus Christ, which is lighted in token of His resurrection, and burns during part of the mass from Easter until the Ascension.

Friday, the anniversary of the crucifixion of the Saviour, is called "Good Friday" in allusion to the benefits conferred by his death. The Saxons named it "Long Friday" because of the protracted religious services on that day; and the Germans term it Stiller Freitag, on account of the solemn silence observed in the churches, or Char Freilag, from an antiquated word signifying penitence. During the first two or three centuries of christianity it was called the "Pasch," because then Christ, the Paschal Lamb was slain.

In the Episcopal Church the services during the Passion week are characterized by more than ordinary solemnity. There is a special "Gospel" appointed for each day, embracing the sacred record of all the events incident upon the Saviour's passion. The penitential psalms are usually introduced, more or less, into the services, and their whole character is made to partake of a deeply penitential tone. The week ends with the "Easter Even" service, which tells of the deep mystery of the rest of the Saviour's body in the tomb in anticipation of the Resurrection. This week, of course, concludes the season of Lent, which will be succeeded by the great festival of Easter, when, in keeping with the joyful teachings of the day, all the religious services are made to partake of the most jubilant character.

UNITED STATES DISTRICT COURT-HON GEO. BRYAN PRESUDING .- Friday, Arril 3 .- The court opened at the usual hour.

Ex parte Henry Bischoff, In re S. Warren Nelson, a bankrupt. Application to establish a special lien. On motion of Simonton & Barker, solicitors, the case was referred to R. B. Carpenter, Esq., Registrar.

READ THE FOLLOWING

CHARLESTON, S. C., December 10, 2007.

Wm. Gurney:

DEAR SIR: For the past year I have had the superintendence of a large Cotton planting interest near the city. In the cultivation of the land I have used CROASDALE'S PHOSPHATES, and although the season was most unfavorable to a fair experiment of this Fertilizer, I can with safety say that the beneficial effects on the crops in the progress of its growth was most manifest. By fauth in its utility is so strong that I will recommend its use for the ensuing season. Very respectfully,

G. W. S. LEGARE.

HILTON HEAD, December 20, 1867. Wm. Gurrey:
DEAR SIR: I experimented with five different kinds of Phosphates and Manurés the past season on cotton lands, and am forcibly convinced that "CROASDALE'S SUPER-PHOSPHATE" is far superior to any other of the fertilizers I have tried, and think so invorably of it that I intend giving it the IN ORDER TO FACILITATE THE SUPPLY OF OUR FURE OLD MONONGAHELA RYE WHISKEYS to our former numerous customers at the South, we have appointed Messrs. H. GERDT'S & CO., our Agents, who, by this arrangement, are enabled to supply the trade at prices which will ensure satisfaction. Yours respectfully.

Yours respectfully.

Superintendent U.S. Cotton Company.

MAPES' NITROGENIZED SUPER-PHOS-PHATE OF LIME.

THE PRACTICAL EXPERIENCE GIVEN BELOW
of planters during the past season, fully establish
all the advantages claused for this well-known FER-Received the highest premium awarded to Fertil-izers by the American Institute of New York, held October, 1867.

50 BARRELS OF THE ABOVE FAVORITE WHISKEYS, consisting of X, XX, XXX, and NECTAR BRANDS, and also of lower October, 1857.

For full report, with analysis made by the Committee of the Institute, composed of Dr. C. E. Buck, Professor J. G. Pohle, and other prominent Chemists, see pamphlets.

The distinguished feature of this SUPER-PHOS-PHATE from other similar Fertilizers is, that all of its ingredients are of animal origin, and are either its ingredients are of animal origin, and are either soluble in water, or in a condition to quickly become soluble in the soil and be taken up by the crop.

Contains no inert or mineral materials.

The proper relative proportion of the ingredients in MAPES' S. PER-PHOSPHATE to meet the rein MAPES'S PER-PHOSPHATE to meet the requirements of the Cothin crop on Georgia and South Carolina soils, is fully proved by the experience of planters who testified that wherever applied, even to land noted for rusting cotion, the disease is entirely corrected, and a healthy, vigorous growth produced. On the same land Poruvian Guano and other fertilizers have failed to secure a healthy growth.

REPORTS FROM PLANTERS, 1867.

FOR Letters in full see Descriptive Pamphlet.

Dr. E. M. ROYALL, Carles Church Parish, writes: Applied at the rate of 150 to 200 pounds per acre on 11th April, on 22 acres blue clay land, a good deal worn from being planted in cotton from 1857 to 1867, with only one year's rest during that time, and not-

Itth April, on 22 acree of one clay man, a good tear worn from being planted in cotton from 1857 to 1867, with only one year's restduring that time, and notwithstanding the long continued cold and heavy rain, and gales during the spring and summer, about the first of September the crop on this field was estimated by some of our best judges to promise a yield of 180 to 200 pounds fine Sea Island Cotton Liut to the acre. Notwithstanding the ravages of the caterpillar, the first cotton picked was from the field on which MAPES' PHOSPHATE was used, and it has made about 65 pounds to the acre, while no other manured land made over 45 pounds. Has used MAPES' PHOSPHATE on melus, potatoes and the garden with satisfactory resul's.

THOMAS S. SALTER, Washington County, Ga., reports that seventy-five pounds per acre on old land increased both the Cotton and the Corn three-fold. Considers it far more economical than Peruvian Guno.

Dr. E. Pansons, Sandersville, Washington County

Dr. E. Parsons, Sandersville, Washington County Ga., says:
"My observation is that MAPES' SUPER-PHOSPHATE is a preventive against rust in Cotton.
Has about doubled the Cotton and trebled the Corn.
Has done better than Peruvian Guano per pound."
J. W. Scort, of sams section, reports:
"That his crop manured with Peruvian Guano was far more effected by drought and excessive rains than where MAPES' SUPER-PHOSPHATE was used. Shall use MAPES' in preference to any fertilizer he has seen used by his neighbors."
W. H. Spanks, Fatomton, Ga., reports:
"Un land about half covered with sedge, and which had not been cultivated in two years, when the manure was put oa, badly manured, crop would yield two pounds where the unmanured would yiel one." WINNER OF THE WAGER

B. B. HAMILTON, Americus, Ga., reports: "Obtained the most satisfactory results from MAPES' SUPER-PHO-SPHATE, applying it as a top dressing. Considered to have had the best garden dressing. Considered to Historyia."
this year in Scuthwestorn Georgia."
W. J. Anderson, Fort Valley, Ga., reports:

"MAPES" SUPER-PHOSPHATE has doubled the crop of cotion in severy case reported, and some report it has more than doubled their crop. On wheat and cats the results are very satisfactory."

D. A. WARNOCK, Beach Branch, S. C., reports:
"On land which always rusted cotton, increased the crop twofold; ss line cotton as he has seen this year. Prevented rust. Four rows unmanured rusted in August. Everything the MAPES SUPER-PHOSPHATE was tried on did well. Cotton stood the cold weather in Spring; kept perfectly green, and growed finely; has beat Peruvian Guano in his neighborhood. Believes it to be the BEST Manure now in use." HERRING, FARREL & SHERMAN FARREL, HERRING & CO., HERRING & CO., Nos. 3 BROAD AND 109 EAST BAY STREETS

now in use."

E. R. Liles, Lilesville, Anson County, N. C., re "As compared with Peruvian Guano and Baugh's "As compared with result was decidedly in favor of MAPES' SUPHER PHOSPHATE; attributed, beyond doubt, to the fact that the ravages of the rust were not, by a marked difference, so severe where it was applied as whore the other manures were."

JAMES MCMEEMIN, Alston, S. C., reports: "Used a ton of Peruvian, and found the res one half as compared with those from MAPEN SUPER-PHOSPHATE. Soil mostly sandy, with clay subsoil. Marked difference in the size of the bolls, in favor of MAPES SUPER-PHOSPHATE. On Cot-

n plants the increased growth was about 100 per JOEN R. HAIR, Mims, S. C.: JOEN R. HAIR, Mims, S. C.:

"Cotton was more vigorous and healthy, and matured at least two weeks earlier where MAPES' SUPER-PHOSPHATE was used as compared with other Fertilizers applied. MAPES' SUPER-PHOSPHATE produced 100 pounds per acre more Cotton than Rhodes' super-Phosphate, and 50 pounds per acre more than Soluble Pacific Guano. Same quantity of each, 150 pounds, used to the acre, cultivated in the same manner. MAPES' SUPER-PHOSPHATE more than doubled the yield of Cotton."

R. S. VENNING, Christ Church Partsh, S. C., retotts:

torts:

"One application, 200 pounds MAPES' SUPER-PHOSPHATE, per acre, made the cotton grow to the height of six feet, where it grew only two feet the year before. Considers MAPES' SUPER-PHOS-PHATE the best Fertilizer for SEA INLAND COTTON, and would safely recommend it to all plant-

ers."
S. C. Means, Spartacburg, S. C., writes:
"Used 240 pounds per acre, applied May 18th. Can
safely say never saw a more vigorous growth impart
safely say never the use of any manure. Satisfied ed to cotton from the use of any manure. Satisfied the use of MAPES' SUPER-PHOSPHATE pays hand Rev. W. A. MERRIWITHER, Valle Crucis, near Co-

lumbia, S. C., reports:

"MAPES' SUPER-PEOSPHATE has given perfect satisfaction, and that it permanently improves the soil. Has no hesitation in saying it is the special manure for the turnip and Irish potato."

P. C. PENLETON, Validoston, Ga., writes:

"MAPES' SUPER-PHOSPHATE has exceeded my most sanguine expectations. The effects of its use on Corn, Peas and Garden Vegetables was most marked. If it can be always kept up to the stan-dard it must take the preference of all fertilizers in

use."

M. B. Hunter, Quitnan, Ga., reports:
"Applied at the rate of 150 pounds per acre upon every alternate four rows. The result was truly astronishing. The manued rows yielded fully double the neighboring alternate rows." boring alternate rows." TERMS-\$65 A TON, CASH. TIME SALES CAN BE ARRANGED FOR, PATABLE IN

RODRIGUES

PULMONIC ELIXIR SPECIFIC

TAS RAPIDLY DISTINGUISHED ITSELF FOR its wonderful restorative and cursitive qualities. Under its stimulative influence, and by its penetrative agency, this health invigorating cordial excites a general beneficial reaction, and disperses the impermeable obstructions which prevent access to other remedies. While gradually reducing the accompanying constriction which attends the malady, it reproduces the essential warmth and elastic vigor of the respiratory vessels, which, by this remedial combination, promotes the healing process by which relief and cure is effected.

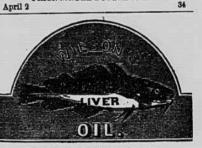

Hemorrhages are arrested and cured, with every other concurrent disorder.

As neither narcotic nor emetic properties of any kind are employed in this Pulmonic Compound, and the most assiduous attention given to the quality and medical value of each component article which constitute it, it is confidently and conscientiously recommended for its safety and reliability, without restriction in generous, wholesome diet, or apprehension of renewed cold from its effects.

For sale wholesale and retail by the Proprietress, Mrs. CECILIA RODRIGUES, northwest corner of
